PIG® Spaghetti Booms

BOM203

Specifications

Weight	12.260000
Absorbency	90.8 L/Bag
Color	White
Fluids Absorbed	Oil-Only
Composition	Skin - Polyester Netting Filler - 100% Polypropylene
Contents/Package	4 booms/bag
Dimensions	13 cm Dia x 3 m
Warnings & Restrictions	When sea-weather condition is wind speed >5 knots & a (perpendicular) water-current speed >2 knots, this can cause oil absorbent booms to submerge, allowing oil to pass over them. Waves higher than freeboard (above water) portion of boom will push oil over absorbent booms; optimal sea-weather condition for usage is typically Beaufort Scale #2 or less.
Recycled Content	N/A
Sold as	0

Description

Mesh skin and spaghetti strip filler design is ideal for pulling in thick oil or for use in fast-moving waters

Tough outer mesh is UV resistant for long-term outdoor use without degradation; lets fluids easily pass through to filler material

Rope running along length of boom withstands up to 180 Kg loads, adding strength for deployment and retrieval

Boom floats at surface for easy retrieval, even when saturated

Absorbs and retains oils and oil-based liquids - including lubricants, fuels and cleaning agents - without absorbing a drop of water

Note: Not recommended for use on land. PIG Oil-Only Absorbent Booms are recommended for land-based applications
